X Series Generators

X30 X48 X70

COLD WEATHER PACKAGE

The **megagen X Series** is a range of high-quality, eco-friendly generator sets designed for use in applications that have a more consistent power demand, such as remote location dewatering or powering frost fighters. Featuring the many of the same long-lasting components of our flagship model, these generators are easy to use, offer reliable power and are designed to handle challenging conditions with ease.

The **megagen X Series** line offers a range of options suitable for a variety of job sites and industries.

Features:

- ComAp Controller
- Large capacity fuel tank and additional external fuel tank connectivity to maximize runtime
- Superior sound proofing solutions
- Master battery disconnect for added safety
- Cold weather package to protect your equipment in harsh weather conditions
- Central lifting hook to move equipment safely and securely
- 240 / 480 switchable
- 110% spill containment, minimizing environmental impact
- Single axle trailer option
